## INFORMATIVE DIGEST

Reference: Government Code Section 11346.5(a)(3).

### Summary of Existing Laws

**HSC Section 18928** sets forth that each state agency adopting or proposing adoption of a model code shall adopt or propose adoption of the most recent edition of the model codes within one year after the date of publication of the model code, national standard, or specification.

**HSC Section 18928.1** specifies that building standards adopted or approved by BSC shall incorporate text of the model codes, applicable national specifications or published standards, in whole or in part, only by reference, with appropriate additions or deletions therefrom.

**HSC Section 18934.5** authorizes BSC to adopt, approve, codify, and publish building standards for the design and construction of state buildings, including California State University buildings and, to the extent permitted by law, University of California buildings, where no state agency has the authority to adopt building standards applicable to state buildings.

**HSC Section 18934.7** mandates BSC to adopt the building standards of Appendix Chapter 1 of the International Existing Building Code for publication by reference in the California Building Standards Code.

### Summary of Existing Regulations

The existing 2022 California Electric Code (CEC) is Part 3 of the California Code of Regulations, Title 24, also referred to as the California Building Standards Code. The 2022 CEC is based on the 2020 National Electric Code (NEC) of the National Fire Protection Association (NFPA), with amendments for state buildings and buildings constructed by California State University and University of California promulgated by the California Building Standards Commission.

### Summary of Effect

BSC is mandated to adopt the most current editions of the model codes. This proposed action by BSC will repeal the 2020 NEC and adopt the 2023 NEC with existing and new editorial amendments into the 2025 edition of the California Electrical Code (CEC). This proposed action will make the 2022 CEC inoperative upon the effective date of 2025 CEC on January 1, 2026. BSC's amendments are applicable to state buildings, state colleges and universities, pursuant to Health and Safety Code Section 18934.5. The Initial Statement of Reasons (ISOR) provides a complete description of the proposed building standard amendments.

## Comparable Federal Statute or Regulations

There are no comparable Federal Statutes or regulations related to the proposed action by BSC.

## Policy Statement Overview

This proposed adoption of the most current edition of the NEC, by reference through the California Code of Regulations, Title 24, makes it applicable to construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, location, maintenance, removal and demolition of every building or structure or any appurtenances connected or attached to such buildings or structures throughout the State of California as specified in Article 89 of CEC. The adoption of the most current edition of the NEC provides an up-to-date reference document for new building projects and existing buildings to be remodeled or otherwise altered under the next triennial edition of the California Electrical Code. BSC's amendments are applicable to state buildings, state colleges and universities, as specified in Article 89 of CEC.

## Evaluation of Consistency

The proposed regulation is not inconsistent or incompatible with existing state regulations.

## OTHER MATTERS PRESCRIBED BY STATUTE APPLICABLE TO THE AGENCY OR TO ANY SPECIFIC REGULATION OR CLASS OF REGULATIONS

Reference: Government Code Section 11346.5(a)(4).

BSC has determined that there are no other matters prescribed by statute applicable to the agency or to any specific regulation or class of regulations.

## MANDATE ON LOCAL AGENCIES OR SCHOOL DISTRICTS

Reference: Government Code Section 11346.5(a)(5).

BSC has determined that the proposed regulatory action would not impose a mandate on local agencies or school districts. BSC does not have authority to impose building standards or regulations on school districts. While local agencies (e.g. city and county building departments) are required to enforce the CEC, this proposal does not impose new mandates that would require state reimbursement pursuant to Part 7 (commencing with Section 17500) of Division 4 of the Government Code. This proposal makes only clarifying changes to existing code language and would have no change in regulatory effect.

## ESTIMATE OF COST OR SAVINGS

Reference: Government Code Section 11346.5(a)(6).

An estimate, prepared in accordance with instructions adopted by Department of Finance, of cost or savings to any state agency, local agency, or school district.

- A. Cost or Savings to any state agency: **NO**
- B. Cost to any local agency required to be reimbursed under Part 7 (commencing with Section 17500) of Division 4: **NO**
- C. Cost to any school district required to be reimbursed under Part 7 (commencing with Section 17500) of Division 4: **NO**

- D. Other nondiscretionary cost or savings imposed on local agencies: **NO**
- E. Cost or savings in federal funding to the state: **NO**

Estimate: BSC has determined that this proposed action makes only clarifying changes to existing code language and have no intended change in regulatory effect. This proposal does not impose new mandates on local agencies that would require state reimbursement pursuant to Part 7 (commencing with Section 17500) of Division 4 of the Government Code.

## **CONSIDERATION OF ALTERNATIVES**

BSC has determined that no reasonable alternative considered by BSC or that has otherwise been identified and brought to the attention of BSC would be more effective in carrying out the purpose for which the action is proposed or would be as effective and less burdensome to affected private persons than the proposed action. In addition, no reasonable alternative considered by BSC or that has otherwise been identified and brought to the attention of BSC would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provisions of law.
