

### Performance Enhancements

OPSC Online programming was refactored to speed dashboard and application management loading times to minimize network “timeouts”.

### Document Upload/Download Enhancements

OPSC Online now restricts the upload of macro-enabled files which are unable to be downloaded by OPSC due to security risks. Files with .docm, .xlsm, .pptm, etc. file name extension are now restricted from being uploaded to OPSC Online.

### Charter School Facility Program Applications

Fix a bug that prevented a user from submitting an *Application for Funding* (Form SAB 50-04) following the submittal of an *Application for Charter School Preliminary Apportionment* (Form SAB 50-09).

### District Contacts

Added the ability to see all school district contacts (consultants, delegates, architects, and design professionals) on the District Contacts page.

### Resources

Improved layout and categorization of OPSC Online Resources and User Guide.

### District Certifications

Added the ability for the District Superintendent and Authorized District Representative to certify the architect and design professional certifications in circumstances where these individuals are no longer under contract by the school district.

### OPSC Online Header Icons

Improved layout and automatic resizing to adapt to various screen sizes.

### User Profiles

Added the ability to add address information for personal user profiles.
